Generation No. 1

1. JOHN THOMAS¹ HOLLAND was born Bet. 1819 - 1822 in North Carolina¹, and died Aft. 01 Jun 1900 in Georgia². He married MARIAH HUTSON³ Abt. 1844 in North Carolina⁴. She was born Abt. 1815 in North Carolina⁵, and died Bef. 27 Jun 1900 in Georgia⁶.

Notes for JOHN THOMAS HOLLAND:

NOT CLEAR whether JOHN THOMAS belongs to Eli or Enos, but he left Colquitt and moved to Mitchell County with Eli's family.

The dwelling/family number on Enos Holland is 45/45, but the same number is also on the following household, that of William J Heard (34) and Margaret (28). Enos' number should probably be 44/44 because the preceding number on the preceding page is 43/43. The two households following the Heards both have the same number 46/46.

Sons Charlie T and Wiley Eli were already in Jackson County, Florida. Dau Almedia must have gone with them, as she married there in 1892. This seems odd, as she was only abt 18 when married. Eli would have been only about 13 yrs old in 1892. Odd that children that young would be allowed to go so far away. Maybe this is not the right family. McNab Hollan(d) found in any state in 1910.

Nothing fits for David. In 1910, there is only one David Holland in US born in 1870-1890 Georgia: age 22, Ga NC Ga, sgl, farm laborer, boarder in household of AJ and Eliza Combest in Boston, Thomas County. His age looks like 22 but may well be 32 because the first digit is a little taller and you can see on the next page that many 3's have little tails and look like 2's except slightly taller. If so, this would fit his age of 52 in 1930. Also, there is a Sebron and Ophelia Cumbass living adjacent Julius Holland in 1900 Colquitt, and these same people (as S C and Ophelia Combest) are in the same precinct only 10 entries away from David Halland in Boston in 1910. Also, a few entries away is a JC Cumbest, married 8 years to a wife named Arsillar who is about the same age as Julius Holland's daughter Arsilla. JC is probably the son James in the household of Adam and Liza Cumbest in 1900 and 1920.

Mitchell Co, Ga census of 1900 gives David's birth year as 1886 but the year of 1882 for his brother McNab was at least 6 years off (he was 4 in 1880). David was not on the 1880 census, but his cemetery stone gives birth date of May 1872, and age of 39 in 1920 gives birth year of 1880. Age of 52 in 1930 is two years too old counting from 1920 and would give birth year of 1877, but it fits his age in 1910.

Census of 1930 says he was 52 and married at age 25 giving abt 1903 as marriage year, but that does not fit marriage date to Laura May in 1911, so he would have to have been married before. If 1920 age of 39 is correct and he married at 25, then the prior marriage would have been about 1905. **However, his 1910 census entry shows him to be single.** Laura's age of 26 in 1920 fits her birth year from 1900, but 1930 is off for her and children Joseph and Lillie.

This family is documented here to demonstrate that they were in contact with the Colquitt Hollands and, therefore, it is likely that the David Halland in their household in 1910 is actually David, son of Joseph Holland. They were the only Cumbest families in Thomas County. There was also a Cumbest-Cumbass family in Mitchell County most of these years.
