On an 1856 map at UA website, Wellborne appears to be a little S of due W of Newton (in Dale Co) and a little W of center of Coffee Co. Marked as "Wilbur" on another 1856 map. An 1866 Harper's Magazine map shows it almost due W of Newton and SE of Elba. May have been near Damascus or Turner Crossroads, W of Enterprise.

James E	16		Al	James Ellison?
George	13		Al	undocumented, if Elijah's son
John	12		Al	m. Martha Elizabeth "Beff" Posey?

I have been aware of this census record for many years, but always rejected it as Elijah's widow because the ages for James E and John were way off from those commonly reported, and George's and John's ages precluded their being sons of an Elijah who died in 1844-45. However, after census records were found indicating birth years for James E and John that are later than those commonly reported, *these ages fit perfectly for them*. If this is our Nancy, it implies that Elijah could not have died in 1844 or is not John's father. Also, it introduces a son George who has not been documented.
